

## Glasgow Museums Biological Records Centre (GMBRC) Shapefile Requirements

**When emailing us shapefiles please include the following in the body of the email:**

- A central grid reference for the site
- The total search area required, including the buffer in km<sup>2</sup>

### **Shapefile requirements:**

- Include the buffer zones (e.g. 2km buffer) as we cannot edit shapefiles
- Send us the shp, shx, sbn, sbx, shx and dbf components at a minimum

**Send all files unzipped. Our email system quarantines zipped folders and it is difficult to get them back.**
