Transforming People's Futures: The role of Glasgow Life in Population Health

In our new **GOLD course on 'Population Health'**, Sir Harry Burns a world-renowned expert in addressing health inequalities, will guide you through this subject in his uniquely relatable style (*and humour*).

This course aims to help you...

- Develop your understanding and knowledge about health inequalities in Glasgow.
- Find out what the social determinants of health are and why where you were born, where you live and the work that you do can affect your health.
- Consider why Glasgow Life has a responsibility in supporting people to develop positive health and wellbeing outcomes.

Sir Harry opens the presentation with an Albert Einstein quote...

'We cannot solve our problems with the same thinking we used when we created them'
