

VACCINATION AND TESTING CENTRES

UPDATED MONDAY 13 SEPTEMBER 2021

The following Glasgow Life venues are being used as part of the nationwide Covid-19 vaccination and testing programme. All venues are being operated by NHS Greater Glasgow and Clyde and it is the NHS who will invite you to an appointment at a vaccination centre, not Glasgow City Council or Glasgow Life.

Please only attend if you have an appointment from the NHS.

VENUE	ADDRESS

Tollcross International Swimming Centre <i>(Walk-through testing centre)</i>	Within the overflow car park, 350 Wellshot Road, Glasgow, G32 7QR

If you have questions about your vaccination (for example, if you need to change your appointment), contact the national Covid-19 Vaccination Helpline, which is available every day from 8am to 8pm on **0800 030 8013**.

Walk and drive-through Covid testing centres are open seven days a week with appointments available between 8am and 8pm daily. You can book a test via the [NHS Inform website](#). Free lateral flow home testing kits are available for collection without an appointment from all walk/drive-through testing centres between 3.30pm and 8pm each day. You can find your nearest collection point using this [postcode checker](#). For use twice-weekly, they can also be ordered online [here](#) or by calling the national testing helpline on **119** to be delivered by post. For more information, visit gov.scot/communitytesting.

You should not take a lateral flow test if you have Covid symptoms. Instead, you should book a PCR test at a walk or drive-through testing centre and self-isolate.
